No suspension of subscriptions, redemptions or conversions is envisaged.

Yours faithfully,

Appendix I – New Investment Policy

The objective of this Sub-Fund is to provide a consistent level of income and return over a full market cycle investing in a portfolio with exposure to a diversified range of fixed interest instruments and equities worldwide corporate, sovereign or quasi-sovereign issuers, with no more than 60% of its net assets exposed to equities (from June 22 2026, the Sub-Fund's exposure to equities will be between 25% and 60% of its net assets).

The Sub-Fund's credit quality will be at least of BBB- on average rating. The Sub-Fund may invest up to 20% of its net assets in securities rated lower than Baa3/BBB- by major credit rating agencies at the time of the purchase and will not invest more than 10% of its net assets in contingent convertible bonds ("CoCos"). Also, the Sub-Fund will not invest more than 30% of its net assets in emerging markets.

Exposure to these asset classes will be achieved through investments in exchange traded funds, typically aiming at tracking different benchmarks. Such undertakings for collective investment shall qualify as UCITS or other UCIs as defined under the heading "Units of undertakings for collective investment" in the investment restrictions section.

The Sub-Fund may hold non-Euro denominated assets. Non-Euro denominated currency exposure is limited to 50% of the Sub-Fund's net assets.

The Sub-Fund will not invest more than 20% of its net assets in ancillary liquid assets, being cash and deposits at sight (such as cash held in current accounts) for ancillary liquidity purposes in normal market conditions. Under exceptionally unfavourable market conditions and on a temporary basis, this limit may be exceeded, if justified in the interest of the investors.

The Sub-Fund may also invest in derivative instruments such as options, futures and forwards within the limits stated under the headline "Techniques and Instruments" to achieve the exposure to the asset classes as well as for hedging purposes. These derivatives may be traded on either a regulated market mentioned under subparagraphs a), b) or c) under the headline "Eligible Assets" or OTC and entered into with highly rated financial institutions specializing in this type of transactions and participating actively in the relevant market. In this case this Sub Fund may hold money market instruments, bonds or cash in order to finance the margin calls.

Sustainable Finance Disclosure Regulation categorization

The Sub-Fund promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector ("SFDR") as set out in in Annex I of this Prospectus.

Benchmark

The Sub-Fund is actively managed in reference to the ICE BofA Euro Government Index (15%); ICE BofA Euro Corporate Index (35%); MSCI ACWI ex Europe USD Net (30%); MSCI Europe High Dividend Yield EUR Net (20%) (the "Benchmark"). The Sub-Fund does not track the Benchmark. The reason for referring to the Benchmark in this investment policy is to indicate that it is used for performance comparison purposes. However, the Investment Manager uses its discretion to allocate to different assets based on an analysis of the market conditions, economy prospects and valuations. As such, the Investment Manager will deviate from the Benchmark asset allocation and invest in other allowed assets that might not be part of it.
